ColorPro

Manual ColorPro Update

1. Copy the updates from your storage device (CD, thumb drive, zip drive etc.).

2. Go to **C:\Documents and Settings\User\My Documents\ColorPro**.

   - *Every system will be unique*. You can find this by clicking the **START** button in the lower left of your screen; find **My Documents** or **Documents**, then double clicking on the **ColorPro** file. Vista machines or those on a network may require you selecting a user as well.

3. Paste the updates in **C:\Documents and Settings\User\My Documents\ColorPro**

4. Open ColorPro.

5. In the upper tool bar find **TOOLS > DATABASE > IMPORT…**

6. In the Database update window that appears, click **START** in the lower right corner. **DO NOT CHECK UPDATE PRICES!**

7. ColorPro will prompt you to save the update. Click **NO**.

8. The update will run. You will be prompted that the database was successfully updated.

9. Click **OK** and you will be returned to the Database update window. Click **CLOSE** in the lower right of the window.

10. ColorPro has now been successfully updated.
