

ColorPro Registration & Internet Update

It is now easier to update the formula database of your ColorPro via the internet! You no longer need usernames and passwords to use this function. A new registration feature has been added which will authorize ColorPro software upgrades over the Internet. In order to receive the new formula database updates and have access to the latest colors and the entire library of color formulas, you will need to install and register the latest available version of ColorPro.

*Before installing the ColorPro CD, create a folder on your Desktop and name it **Wanda**. This is only necessary for new installations or if the folder does not exist.*

REGISTERING COLORPRO

To perform the ColorPro update over the Internet, the software will need to be registered. The registration is responsible for authorizing updates over the Internet - no longer requiring usernames and passwords for these updates.

- When the version update is loaded, open the software. Users will be prompted with a screen to provide registration information (see example)
- Fill in all the the fields with the information and click OK
- Once the registration form is completed and submitted, the computer is registered and the prompt screen will no longer appear

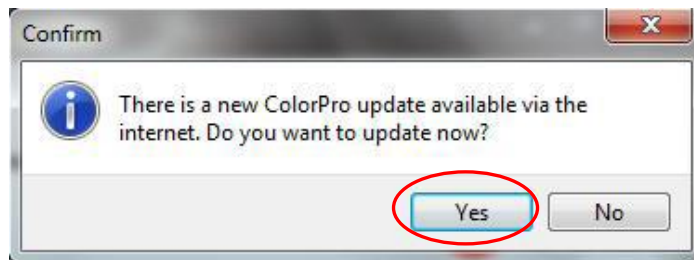

A screenshot of a Windows-style dialog box titled 'Register'. The dialog box contains several input fields: a dropdown menu for 'Country', a text box for 'Company', a text box for 'Address', two text boxes for 'ZIP' and 'State', a text box for 'City', a text box for 'Contact', two text boxes for 'Telephone' and 'Email', and two text boxes for 'Distributor' and 'Secondary distributor'. At the bottom right, there are two buttons: 'OK' and 'Cancel'.

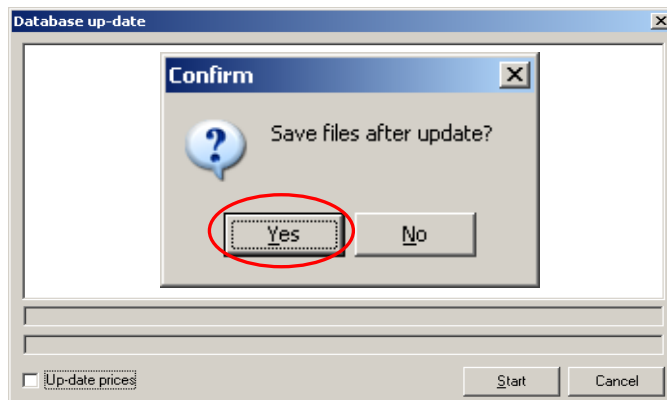

UPDATING OVER THE INTERNET

After registration is complete, follow the steps below to perform the update:

1. When you launch the program, it will automatically search for available updates.
 - a. In the event an update is available, the system will ask you if you want to update. Just click on **YES** to update or **NO** to by pass update.

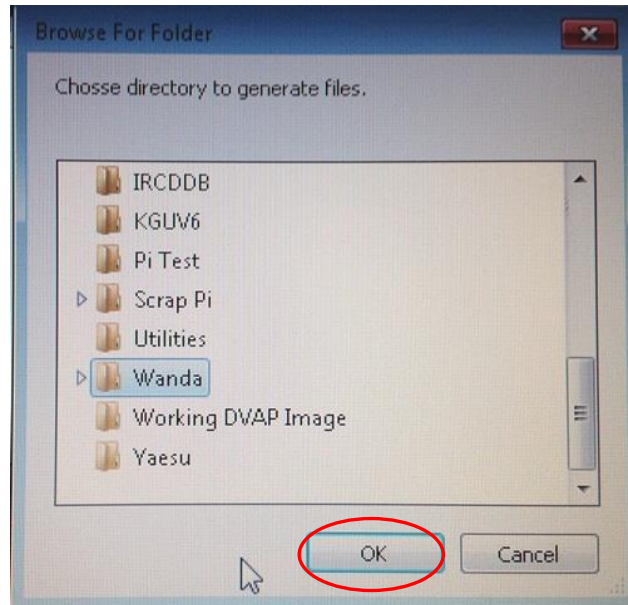

2. During the update process you will be asked if you want to save the downloaded files which will allow you to update any other computers which are not connected to the internet. In order to do this you must click on **YES** when the screen below appears and then select the location where you wish to save the files. (Diskette, CD or Pen drive...).

3. Search for the Wanda folder created on your Desktop and click **OK**.

4. Once the download is finished a window will appear in order to finish the update. Click on **Start** to complete the update process. Please, do not select the option Update prices, or your price list will be removed.
