

Color with ease and speed

For any project, you need a good base. Wandabase HS polyester basecoat provides quick drying, strong hiding power, and a smooth, uniform finish.

Offering an impressive, accurate color match, it can be used for small repairs or total re-sprays and delivers great results every time.

Approved for National Rule markets, Wandabase HS requires only 55 tints to achieve a vast range of solid, metallic and pearl colors.

- Quick flash off saves time
- Compact color system requires less inventory
- Over 35,000 colors and variants for quick color reference
- Easy to mix, apply, and achieve uniform color orientation
- Strong hiding power means fewer coats, less material, and cost savings

Quick facts

Flash-off Time: 5-10 mins between coats at 70°F
15-20 mins before clearcoat at 70°F

VOC (RTS): < 6.58 lbs/gal
